IRRIGATION PUMPING SERVICE

ORIGINAL

This schedule is available to qualifying customers of the Cooperative receiving service for irrigation pumping, and is applicable to all irrigation services with a 10 E.P. minimum.

Customer Charge: \$30.00 per month

Energy Charge: 0 to 134 kWh's per kW . . \$0.0737 per kWh
(0 to 100 kWh's per H.P.)
Over 134 kWh's per kW . . \$0.0374 per kWh
(Over 100 kWh's per H.P.)

The kW for billing purposes shall be the maximum kW used during each month.

If a bill for service is not paid within 20 days of the date the bill is rendered, the Cooperative will discontinue service by reason of nonpayment upon not less than 48 hours' written notice. The service will not be reconnected until the outstanding bill is paid in full.

Service under this rate schedule will be disconnected at the end of October, unless prior arrangements are made. Those wishing the service to remain connected will be billed monthly the \$30 customer charge plus kWh charges.

Service under this rate schedule will be connected in April, unless prior arrangements are made. Those wishing to be connected or disconnected at times other than April and October will be charged a \$20 connect and disconnect fee.

POWER FACTOR: The customer shall maintain not less than a 95% lagging power factor. Those customers which are determined to have power factors of less than 95% lagging shall have the demand for billing purposes increased by 1% for every 1% that the power factor is less than 95%.

NEW ARIZONA OFF-PEAK SERVICE
(500 kW Maximum)

Service rendered hereunder shall be interruptible. The customer will reimburse the Cooperative for all metering and load management equipment costs incurred.

- Demand:
1. \$3.60 per kW per month for use at off-peak times specified by the Cooperative.
 2. \$30.00 per kW per month for use at times other than those specified in part 1 above.
 3. The minimum demand for billing purposes shall be the greater of actual metered demand or 0.8 kW per kVa of required capacity.

Energy: All kWh's @ \$0.0216 per kWh
Minimum energy charge: \$120.00 per month

Load shall be interrupted using one of the following options as determined by the Cooperative.

1. Utilizing the Cooperatives current load management system. Such interruption will be automatic during peak hours.
2. Customer will interrupt loads daily during the Cooperatives designated peak hours. This will be monitored by utilization of a time of use meter.
3. For customer loads which are periodic, customer will contact the cooperative daily during periods of use to determine peak hours.

TOWER FACTOR: The customer shall maintain not less than a 95% lagging power factor. Those customers which are determined to have power factors of less than 95% lagging shall have the demand for billing purposes increased by 1% for every 1% that the power factor is less than 95%.
